Special Guest Speaker:

Joel Grewe, Deputy Director of Generation Joshua

Joel started his life as an advocate when he was in 6th grade and convinced his mother to homeschool him. In 2007, after working on the Hill for J.C. Watts and then delving into the world of demographic research, Joel started training future leaders as Generation Joshua's National Clubs Coordinator.

He now serves as the Deputy Director of all of Generation Joshua's national efforts. A graduate of his hometown college, Eastern Washington University, he travels around the United States training youth to influence the political world for Christ.

When Joel speaks, he draws on his fifteen years of ministry experience and ten years of political campaign experience to make the message relevant to a generation that he says, "Will change the world." Living in the DC area, Joel, his wife Christie, and their 13 month old son enjoy life in the fast lane.
